8. (Internal Use Only - RJK) LIAISON Received a call from Mike Finley, on the staff of the Subcommittee on International Political and Military Affairs, House International Relations Committee, who told me that they discovered what looked like a typical transistor battery in his office but they had asked the FBI to check it out just to be sure. He asked if our Security technician had noticed this the other day when he conducted a sweep of the room. I said I would check and be back in touch with him.

9. (Unclassified - DFM) LIAISON Called Jack Sapp, on the Senate Rules Committee staff, to inform him that I could not have a transcript of the Director's 31 March statement on S. Res. 400 to him before the first of next week.

10. (Unclassified - DFM) LIAISON Called Larry Smith, on the Senate Rules Committee staff, in response to his call to Mr. Cary. Smith agreed that the Director had made clear his desire for concentrated, exclusive oversight, but that in light of the tug-of-war going on in the Rules Committee now over S. Res. 400, that principle might be sacrificed to political expediency. Smith thought that our interest in this regard should be reiterated through a letter to Senator Howard Cannon (D., Nev.), Chairman of the Committee.

✓ 11. (Unclassified - WPB) LEGISLATION Hilda Schreiber, OMB, called to alert me that an enrolled bill (H.R. 8617) would be forwarded to the Agency this afternoon. She said there was particular urgency on this bill and asked that the Agency send her at least an advance copy by noon on Monday.

12. (Unclassified - WPB) LEGISLATION Called George Gilbert, OMB, alerting him to Senator William Proxmire's (D., Wis.) amendment to the Foreign Relations Authorization Act limiting gifts to foreigners. I told him we were working in the House International Relations Committee to insure that the House does not adopt such an amendment. Gilbert said he would focus on the problem, and later called back to tell me that he was jogging the State Department to take an active stand against the provision.
